PRESS RELEASE (3/19/07)

DSX ACCESS SYSTEMS AND EASYLOBBY ANNOUNCE SEAMLESS INTEGRATED ACCESS CONTROL/VISITOR MANAGEMENT SOLUTION

DSX Access Systems, Inc., a leading international provider of integrated access control systems, and EasyLobby®, the industry leader in secure visitor management solutions, have announced the introduction of an integration module that seamlessly integrates WinDSX total access control and EasyLobby's SVM (Secure Visitor Management) software.

With the new integration module, customers using EasyLobby's SVM and WinDSX will be able to issue different levels of card access to visitors, contractors and employees directly from the EasyLobby SVM visitor form. At the time visitors or contractors are checked or badged in using SVM, information about them, the employee being visited, access level to be granted, card number, and expiration date/time is automatically passed from the SVM database to the WinDSX database, and the card is activated. In addition, when the person is checked out of EasyLobby, WinDSX is immediately notified and the card is deactivated. Cards do not need to be pre-programmed, and they can be re-used.

This integrated solution streamlines visitor management by enabling customers to quickly grant access to employees and visitors while providing the highest levels of security management. Customers using this integrated solution can control visitor and employee access, track visitor locations, and determine the duration for which a visitor or employee's card access is valid.

The WinDSX-EasyLobby integration module utilizes EasyLobby's full suite of visitor management and web pre-registration software, and a broad array of value-added peripherals (passport/license/business scanners and readers, badge printers, cameras, signature pads, barcode scanners, card readers, etc.)

About DSX Access Systems, Inc.

DSX Access Systems, Inc. is a privately held corporation headquartered in Dallas, Texas since 1984. DSX designs and manufactures integrated, total access control software and hardware for single door to enterprise wide systems.

DSX products are sold worldwide through a network of factory-trained dealers. Dealers are located in the United States, Canada, Mexico, Latin and South America, Europe, Middle East, Australia and the Pacific Rim, Nigeria and many other countries.

DSX 's uncompromising dedication to engineering and manufacturing, coupled with a commitment to 24/7/365 product support, has always been a well-maintained priority. DSX Access Systems, Inc. is one of the most respected names in the security industry because of its concentration on providing products and service that exemplify Quality, Reliability and Integrity.
